

Ju Ju Be BeLight Diaper Bag

The lightest diaper bag on the market!

You have to tote a ton of heavy stuff around with you every day; the last thing you need is a diaper bag that weighs a ton, too!

Ju Ju Be BeLight Diaper Bag

This über-weightless 6.4-ounce diaper bag may not weigh much, but it isn't light on style or features. It has a ton of pockets, an adjustable strap and a sleek, urban look. Plus it's reversible, so if you spill the contents of your kid's sippy cup (or even worse, his diaper) onto it, you can just turn it inside out and look as good as new until you make it to the washing machine. Will that be your 10th or 11th load this week?

Great Diaper Bags for Under \$75

Before you were a parent, your favorite bag was something cute and chic and just big enough for your lipstick. Now that you have kids (and have to lug around half your house), you need something big and sturdy, but you don't want to compromise on style. And the fact that your bag's going to end up covered in milk, mashed bananas and poop makes you reluctant to drop big bucks on one. Here are some awesome diaper bags that won't break the bank.
